

COVID Pandemic Gathering Covenant

In gathering together, we promise to:

- Assume good intentions.
- Use this covenant and our congregation's policies and procedures to guide our actions.
- Gracefully give and accept covenant reminders.
- Avoid touching - including shaking hands and hugging.
- Stay properly masked at all times (unless under 2 years of age).
- Remain mindful of how our actions impact individuals who may not be vaccinated or under-vaccinated.
- Prioritize the health and safety of the whole community over our own sense of safety.
- Respect the authority of the volunteer leaders creating and enforcing policies and procedures to protect our congregation.
- Stay home if showing any symptoms of the current strain of COVID or have been directly exposed to COVID in the last 14 days.
- Promptly inform the **Faith Community Nurse** or Safe Congregation Committee if we discover a direct exposure, develop symptoms, or test positive for COVID within 48 hours after having participated in a gathering at church (Nurse@WestsideUU.org).
